2015 VOTER REGISTRATION REPORT

Delaware Code, Title 15, § 2052 requires that

The Department of Elections shall collect, maintain and publish statistical data reflecting the number of electors enfranchised pursuant to this subchapter by each of the voter registration agencies created herein. The 2016 Report was published last month. This completes documentation of Department activities since its formation. The counties may publish reports for 2015 and 2016, but are not required to do so because the statewide reports fulfill the requirement.

The County Departments were responsible for these reports in the past. The information in this report complies with the Title 15 requirement.

This report has 3 tables.

1. 2015Voter Registration Transactions by source
2. 2015 Principal Transactions (New Voters and updates of name, party & address)
3. Registrations cancelled during 2015

Sincerely,

Elaine Manlove
State Election Commissioner
